

FLEXCON: shipping container based residences for refugees
 SOS Aufbau Wohnen. Ideen für ein neues soziales Bauen, Sezession, Vienna, Austria
 National Competition: 1993
 Project Scope: competition design
 Project Size: 73 units
 Project Type: Residential

Flexcon uses series of shipping containers in combination with locally built infrastructure to provide liveable private residences for variable size families of war refugees. The courtyard typology provides identification, shelter and private outdoor space, while the use of pre-fabricated container units ensure fast construction, economic viability and reuseability of the family units.
